There is a life line for the sick, as well as for the drowning man. It is Dr. Pierce's Golden Medical Discovery. It is not a cure-all, but it is a scientific medicine that goes to the fountain head of a number of serious and fatal diseases. When a man gets seriously sick, he can generally be cured by the right course of treatment. The treatment that cures many obstinate chronic diseases consists of pure air, good food, rational exercise, and the use of a remedy that will strengthen the weak stomach, correct the impaired digestion, invigorate the liver and promote the assimilation of the live-giving elements of the food. The "Golden Medical Discovery" accomplishes all these things.
